## THE CURRENT ECONOMIC CLIMATE IS MAKING THE WORKPLACE A PARTICULARLY STRESSFUL PLACE TO BE.

Many U.K. based employees work long hours and suffer from excess stress.

Statistics from the Labour Force Survey (LFS) and The 2007 Psychosocial Working Conditions (PWC) survey shows that work-related illnesses are increasing.

Stress and muscular-skeletal problems cause up to 70% of long-term disabilities whilst work-related stress, depression or anxiety accounted for an estimated 13.5 million lost working days in Britain in 2007/08.
